The Standing Committee of the Church presented the following communication for consideration viz "To the Congregational Church of Christ in Wasthenipton, Dearly Beloved Brethren, A fine weeks since your standing-committee recrued a communication which they now present to you with their recommendations for your consideration. The commencation is as followes .. 11 To the committee of the Old Church in Westhempton, - Dear Brethown, Having eundidly considered your proposals of union, we right that they are not buch as to justify res in complying with them. In article 320, by regnisting those who jour you to 'ne1/9/ nounce all connection and fellowship with Union Church, we feel that more is demanded than we can grant. This, as you are aware, would be a virtual acknowledgement of sin in the formation of the Church. Thould all of Union Church su fit to comply with proposals which you may hereafterful disposed to make, the existence of the Church will of course eccese; but should 15 or 20 min. - bus not ful disposed to comply with conditions with which others rould, we cannot suit oight for us to say to those levethren, members of good standing in the same church with ourselves, -(The do removence all connection and fellowship with you, What weason for such a course es well we have to present to those lovethrow ? They are not hereties; they hold the same articles of fuith, and the same concernant with ourselves; are cheidedly, moral and orligious men; are disposed to falcon passe and holings with all. The only reason which was should have to offor would be this, - you are not disposed to comply with the same conditions of umon thertwo are, We uppell to you and ask, is this suf ficient mason why me should renormed all connection and fellowed hip with our bothern?

All that wer should be willing to do in such 115a case rould be to dissolve our connection with Them in the same manner that other church men lund do in going from one church to another. We feel that every thing which presents a Union can be removed, without saisificing any funder mental principle. In greatest obstacle, and as we think, the only one which cannot be surmount The in accomplishing a Union of the Churches, is The existence of a reste of the Old Church which delears Union Church of its fellowship. This vote, as wer think, should be mimediately and unconditionally recinded; and when this is done a union of the two Churches may reasonally be exprected. Aside from this, and what would necessar vily grove and of it, we see lent little in your pro posals to which, all things considered, we could not conscientionsly accede. But if on mature consider eration, you cannot conscientionsly received it, then all efforts at a Union of the two churches is in our opinion, useless. Having frankly disctored and viewed and frilings, wer are brone prepared to make proposals of union. 1 That the Old-Church unconditionally recine that note which delears Union Church of its followship;

Mb 2 m That it he clearly understood that all evergetical Churches are to be admitted to the communion, - and Union Church world respectfully request, that since the Old Church are frank in declaring this to be their meaning, it be inserted in Their Councerts 3rd Though we feel that the goopel should not be supported by tax, yet we will according to our ability, fruly contribule to its support. 4th That those who have united with us since The formation of this Church, be received as missless of other Chareles are . your regulation in this particular we entirely approve. In making thise proposals we have sacrificed many things which we deen not sufficiently import and to present to your consideration. We are willing to sees fice for Union, where principles are not concerned; least when these come in competition, we dose not, we cannot make the surrender. Aaron Fisher? Committee Francis Land & Union Church Westhroughton Sept 29, 1839 Junas Sikes Church clerk,, [See on file - " A communication from Union Chara dated Sept. 29, 1832]

This communication is not materially differ MI ent from the one recrued and acted repor by this Church on the 11th of April last, and proves that between this and Union-Church there is a fixed dif funce of opinion which is not likely to be altered by any proposals which the two bodies are disposed to make directly to each other. And this difference of views on the part of this church, and for ought that we can say to the contrary, on the part of Union Church is honestly entertained; and yet it is manifistly most disirable that a reconcili ation should be effected between them. Honce it approas to be meessery, either to give up all further attempts at reconciliation, or to refer the matter to a dissetweeted Board, if such a seference can be mutually effected; Thurfore -Pholored, st That in reply to the Communication now laid bufore this Church, it be proposed to Union Church, that such a Board of Reference be constituted in The manner and upon the conditions following. Von 1st Each Church shall appoint a committee of three to solvet the churches from which the Board shall be constituted; _ 2 mg

Althot Francis Soul ? Chish of A true copy- Ser on file - A Communication from Union Church dated See 3, 1839 hour Committee in presenting the foregoing comnumication beg have to say, that, in their opin - ion the proposal made by this, to Union Church on the Broof November last, was not only the but but the only one which can in The nature of the, be presented. This propos al Union Church have formally declined, and

It further signify their desire that the whole sub. jest be allowed to not for the present. And so far as that church as a lody is con. cerned, it is doubthele the duty of this Church to act in accordance with their wishis. But a large proportion of the nominal mem. lens of Union Church are strictly coversant members of this church, and cannot be orgarded as absolved from their own voluntany engagements to realk with us in the faith, and followship, and discipline of Christs house. To thise individuals, this church owes a solumn and imperious duty. The state of things at the time of their accession, was such ad to demand long patience, that they might have time for reflection, and by reflection to discover their mistake. Tuesal years have now haped, during which, this church has been all The while in dup affliction on their account, and they in a condition which, in the opinion of your committee, has greatly embarrafied the introvets of religion in the town. These mendered, whom the church were alliged for Their irrigularity to our pend, were then, and are still in the judgement of charity organded as in the children of god, who have been

strengely drawen away from the fold, 125and wandered from the footsteps of the flook. Consequently their views much be regarded as differing, in some important respects from This Church. Hence your committee rigard it as particularly disirable that the views of these munher should be sought and obtained, and in due form laid before the church, that having a full moderate, doing of their present state, the church may be well advised in the matter of their future action towered them. In accordance with these vines and for the more definite expression of them we present the following resolutions. Obsolved I That in accordance with the imblied wishes of Union Church, fruther comme - nication with that body is not called for, till said church duly invite it. 2 That to those members who seceded from the jurisdiction of this church, and who in The opinion of this Church are still holden by this original covernant with us, a solemn duty is due, which should resure the earliest practicable attention. 3 That, while we see nothing in the

My deliberative acts of this church Toward Thise members which should be retructed it appears not only proper lent dutiful to say to them, that, there has been much in our spirit and consensation as individ wals which is wrong, and which bufore god and man wer duply and honestly deplose. of That, in abmuch as we ardently desive that these mendeus may again regu larly notored by their proper return to the fold, to wealk with this church agreeably to their coverent, a committee of them ber' appointed to confir with them, for the pur pose of laying before throw the foregoing ses alutions, and obtaining from them and ofplicit statement of their remed in relation to the doctions held by this church .. 5 That to This end the committee be instructed to attempt to obtain the get or to, or each of these members to the following questions - Voz I Do you hold with the Congregational Church in Westhampton Aticto of faith and covercent?

Do you hold the same views of 127 christian discipline? Do you believe that in the government of the Church particulus respect is due to the Susoral Office? - to the long estale lished resages of the Church for the maintain - ance of order in the Churches? and that it is the duty of all members of a regular Church, cheerfully to submit to the decidions of the majority in all acts which do not contradict its faith and covenant? Do you hold that all christians united together in the same faith and coverent are, by virtue of their union to Christ and one another in duty bound according to their several ability to sustain the intstitutions of religion in such form as the majority of this boothren, in this wildow judge most wise? 6 That the committee make report of this doings in the above matter in four weeks from this day. And this is the more afflictive as the parties concerned, acknowled edge each others to be christians, but as chis Treams

13 V tians labouring under mistakes which should be rectified. Must it then, be submitted to as a necessary wil that those, who asknowledge each other as christians, and who agree in their views of scriptun doctrine and discipline, and who are convinced that there should be in this town, but one church and congregation, labouring unitedly for The glory of god and the souls of men, shall forever remain as avowed and practical enemies ? - Soit not letter, and does not the honour of orligion, and the opinitual good of men, to say nothing of the order and pracefulness of society.) reguest that some consistent granded should be taken who which the parties can much and forget their stripes with each other? If this be possible, all who have the spirit of the graphel will say no. But to come whon this possible ground, there must be the spirit of conciliation, and the pricise forms which have so long been insisted whom his vain much be sawificed A consistent reconcilication is the grand point at which all much aim, with one heart. To secure this end, it may be asked, - Will not The members of the congregational Church in Weathampton and this seceding bouthon unite together in regarding both Umon

Church and the vote of suspension as dead 33 and together renew their commant before god, and with each other, whom the platform present ed in the articles of faith and coverne A of the Congregational Church & And thus doing, and deeply deplosing the meetically wrong prejudices and spirit which have been exercised, and heartily repenting of them before god, will not all who thus unite, forever dismip the grounds of their past alienation, and cordially walk together as one leady, churfully submitting to the instituted regulations of the Church, as the majority of its members shall direct, in accordance with the pin eighted expulsed in the platform of the Church & And will it not be satisfactory to all, that those who have united with Union Church on profession, and who may desin it should recel ar certificated of their standing, and he admitted to the church as members from those church es, which are, by this Church, regarded as regnlar? And further, should there be any who seerded from the congregational Church, or of those who are united with Union Church, who are determined to maintain a distinct organization, though they may be organded as christians, will not the interests of religion require

By that they should be to cated as having no proper and visibles connection with the visible church of christ? The above engrisied, it is hoped, and believed present a ground whom which the hastis may cordially much and unite, without viv lating established principles on the one hands or the sirulities of conscience or the attent. And it is fully believed that me plan can be proposed which will require fover saintiend on either hart, and seems the grand and sought. And get it is hardly to be expected that every individual will at once, be convenced that even this is practicable; but is mentheless believed that it will be accept able to all who heartily desire a union of the parties. It is therefore to be devouth desired, that all who are ready for themselves, to stand whom this ground, as they love the kingdom of god, and desire to pros perity, will accede to it without delay ... (Se onfile Informal proposals de) After reading the above the Committee in the duced the following - "To the Congregational Church in Wedthampton - your Committee to whom was refund the subject of differ

ence between this Church and those musulus 35 who seeded from its jusisdiction on the 20 tof Octoher 1829 present the following as their Report. In looking back upon the history of wents it appears from the Occords of the Church, that on the 3rd of September 1829, twenty mine individuals applied for letters for the purpose of forming themselves into a church in connection with Union Society, and assigned as their reason for so doing . That they had been deprived of the Sassament for the succepier sin sons, and that they were apposed because they work shiped the god of their according to the dietates of their own conscience. On the 18th of the same month the church declined granting this request on these several grounds, (vor) - That the article of request charges the Church with wrong; - that they had already practically with drawn from the Church; - that trivial offinces will not justify such a seperation; - that the town of Westhampton does not dimand more than one stated place of worship: - and that in order to granting this se quest a mustrally good understanding should exist. At the same time the Church which that they were ready to write with those brothen who have withdrawn from the worship attended at the Meet

136 Meeting- House in calling a mutual Council to duide on musures to be adopted to m move the difficulties which affect the peace and union of the Church. Lifewester Siedel Esq and others were constituted a committee to effect the object of this vote. On the 25th of the same month Esq Judel as chairman of the committee Reported that they had seen some of the botheren who have withdrawn from the worship at the Meeling House and found no encouragement to further attempts to unite with them in calling a menteral Council. - It was under these circumstances that 46 individuals, on the 20th of October following, seculed from the jurisdiction of the checket, claiming to retain their " fellowship with this Church, as a church of Christ and asknowledging its muruluss as christian brothren and sisters in the Lord ... No complaint is presented that the doctrines held by the church are wrong, or that its discipline is worning; or that the Church is a raiched, corrupt Church; but it is ex-Junefoly admitted as christs church with which they claim followship, lest to the government of which they will not submit. This act the church reganded and declared, in a communication to zenas Sikes, the organ of the seceding individe-

nals, to be a breach of their own solemn cove- (3) nunt with this church, and for this reason They were suspended from the privilege of communion with this church. homediately after this act of secession these individuals were morninally organized into a church, (not by an Ecclesiastical Council, nor by one or two pester regular pastors, nor yet by an Evangel ist sent out into a distitute field for the perfesse but,) by an individual of the New york Greeligting whose course of procedure had called forth a note of warning from the pastors in this region, to the Churches the months precious to the went. This step was regarded as contrary to all regular and necessary Ecclesiastical Usage. The ligition acy of the Church, made up of a body of covered breakers, and organized in a maurier so perfect ly disorderly, was necessarily denied. In 1884 and in view of these things, one of the munlims of this Church expressed grief in view of the proceedings of the Church, particularly the vote of suspension halsed in October 1829. " After some discussion the doings of the church in that transaction, and the relation in which we should Stand to the seciding members, was by that inde vidual and the church, refund to a pastoral

B & Council to alide this decision. This Council convened May 14, 1834 and the seceding numbers present were invited by a committee of the Church to unite in the Council, but declined, though they freely stated their feelings and what they thought ought to be done. After heaving these statements and the Records of the Church, the Council after prayerful deliberation made this Result, which fully sustains the positions taken by theo Church, and points out the mithad whom which its seceding men-- burs may be seried, in what way they can ever claim to be a sister church, and the manner in which they are to expect the elestomany courtier extended to other denominations of christians, and closes in these roads; - " Aside from these cases The Council are not aware of any way in which the Church can in consistency with its deety and pervity, its peace and edification, parlicipate with those who have gone out from there, and towards whom The act of noncommunion still stands in force, either in the ordinance of the Lords-Suppers, or such other acts of religions worship as the inter communion of the churches doth otherwise allow and orgain. After the result of this council nothing was formally done till April last, when a correspondence was commenced between this Church and the secoling

brother, and between this and Church in which 39 the terms of reconciliation have been made as liberal as the nature of the case admits, and perfectly sectisfactory so far authore are concerned, who have united with Union Church by profession The Offer to refer the whole matter to a Meetical Council has been made and rejected; and after outisfying themselves that no essential change has taken place in the profifeed sentiments of those who secreded from this church, on points of does true and discipline, your Committee have made an informal attempt, to see what could be done in the way of compromise. In this attempt concersation has been had with several of the seceeding buthsery with a view to determine if they would not be satisfied to have Union Church and the vote of suspendion case to gether, and to have all organize and write with this church whom its present Islattorn? Upon this informal proposal, the enquiry has lean made whither they would be pleased with a confer ence of the parties whon the subject? This unguery was left with them for this consideration and reply, after holding consultation with their buthren, as soon as practicable. But no reply has been made, and it is arobable that no reply is intended. And now your committee find it difficult to see

140 what more can be done by this church toward reclaiming those who have gone out from them. Their course appears in very view disorderly and unscriptural. And get in this disorderly course they claim to be conscientions. Of their private character in the sight of god, ise rould not putend to judge; but we cannot perceive that the honour of orligion can be promoted either by suffering this buthen and sisters to remain as they are, or by restoring Them, with their present views and feelings, to the fellowship of the church. And while your committee are not dishould to render the conditions of reconciliation mon difficult or sween than were recommended by the council in 1834, and while they sincerely deplove the blindrup which manifestly rests whom the minds of those who sicided from the jurisdiction of this church, we are constrained to recommend the following Phabletion, as express ing the imperious denty of this church. - (VVI) Predoced that the duty of this Church toward its occiding members, as imbodied in Union Church in Welthaupton is done: and that while they con-Tince in their present attende they are not to be regarded or treated as members of the regular and

visible church of Christ. All which is respectfully submitted Westhampton March 16, 1838? 166 Sewhsberry offil 12th 1842. Muthumpton. The proceedings of your respective meetings have placed me in an new & executing y response. ble situation. When on the me hand I consider my our inexperience & imperfections; when I reflect upon how much is justly expected of one who ministers at the sacrece altan, and have much are the verousees I possess to need such expectations, I almost strink from incuring in any place a responsibility so great as that you propose. But on the other hand, I seem to hear the call of duty urging me on in the great work in which I have engaged. Having put my hand to the placegh I done not look balet. The bace of conscience seems to bay "los is me if I preach not the Gospel. To this aut I am farmittee & I hope & pray that I may be facina faithful. to your invitation giver with to much (harray & unanimity of feeling, I am at length prepare to respond in the ffirmation. 196 IN Big lous answer to the Gast. To the Congregational Church and Society in Westhampton. Dear Brethern and Friends I received your Communication, inveting, me to settle over with you in the gosfel ministry, a few days since, at the hands of your commettee and after a deliberate and prayerfeel consideration and consultation with your friends and mine, I hereby express my acceptance of the same, reserving to myself the udual privilege of being absent three sabboths in each year without the responsibility of suff - tying the Disk, and shall be happy to meet your Committee at their earlist convenience for the for the purpose of making arrangments for my installation In coming to this decision I have been quided only by an imperative sense of duty. It has been my short earnest and prayersul desire to ko what the will of God is and such has been the indications of providence that I connot avoid the convection that he has directed my footsteps here and presided over your deliberations with refere. to the important relation into which you have

invited me to enter, and the socred trust 197 you have asked me to assume. In accepting this ball I am not undmindful of the responsibility which the Pastoral relation involves nor of the deep solicitude and sometimes poinfeel anxiety with which its duties are performed, but experience has toughte me how much its cares and anxieties may be alleviated by a kind hearted and devoted letple, such as I doubt not that I shall find in you. Fraying that the anticipated connexion may be a meltual blissing to Pastor and people, righty productive of our mutual growth in grace, and result in the glory of God, I am very respectfully and affectionalety yours in the labors and bands of the Gospel. 228 Copy of Nev. E.C. Bissells litter, Somers Aug 5# 155 and Parish of Westhampton Drift Dear Sir. of the 1st of they, on be kalf of the okurch & parisk of Thesthampton extending to me a call to settle over them in the Gospel ministry has been received. For a long time previous to the reception of your letter & especially since that time it has heer a subject of anxious thought with me whother et were expedient for a young man fresh from the Theoligand serninary to asserme at once the entire duties & responsibilities of a christian minister under which deities and responsibilitées we have seen many mon in the prime of their man hood and with a will and fruitful experience sink down through - in it is hely to sustain them. But on the other hand such considerations have finally been more than butanced in my own mind by the fear that the intellectual habits to the spiritual ardar of a young inister wanted be seriously endungered by an inreg alar ministry in many places unrelieved by any of the mellowing and cliveting experiens of a trick fustor. I have therefore come budged that for myself

an early settlement in the ministry would be desirable. This point being determined it is more sury for me to decide upon the proper course for me to specious in reference to the call to the Church in Westhampton, I trust that my deliberations and my final decision have been dictated by the Grad Shipperd in answer to fervent petitions to that one There is at present hut one cause of hor - ilang on my just in accepting your invitation & that is a painful sense of insufficient qualipication car the part to which I am called. I one know so well as I myself what my qualifications and with no assumed modesty I may say that I very much sear us tI should be found unable to discharge satisfactority the duties of a postor of the church at Westman poton, But I remain ber theat severet refuge of human wed know, not by snight mor by fower but by my shirit south the Lord" and I choerfully and gladley dequise in what seems to me so plainly to be will af our Heavenby father. I pay therefore to your kind in in selection I thank you - and I accept most cordially the call to become your paster and when in due time the union between fastor & people is consumated may the bonediations of God rest upon it & cause that it may contribute greatly to Bbis excellent glory for whom all things exist.
